

## Environmental Policy Statement.

Sefas Innovation recognises the effect its operations and activities have on the environment and therefore is committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment. This statement covers the activities of our business and our goals to achieve our Environmental considerations as follows:

### Environmental Aims:

- To communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- To strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.

### Legislation:

- We will operate in compliance with relevant environmental legislation and will strive to use pollution prevention and environmental best practices in all we do.

### Management:

- Will integrate the consideration of environmental concerns and impacts into all decision making and activities.
- Will continually seek to improve and measure environmental performance.

### Training & Awareness:

- Continue to train, educate and inform our employees about environmental issues that may affect their work and promote individual good practice.

### Travel & Transport:

- To encourage responsible travel to/from work by use of public transport, cycle or walking.
- To avoid unnecessary air travel and encourage public transport or shared travel when business trips are unavoidable.

### Utilities, Natural Resources & Waste:

- To promote efficient use of materials and resources throughout our office including water, electricity, raw materials and other resources, particularly those that are non-renewable.
- To actively reduce waste through re-use and recycling.
- To avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of.

### Procurement:

- To source and use local suppliers wherever possible and require that goods and materials purchased comply with current legislation and recognised environmental best practice.
- To purchase recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.

### Responsibilities:

- All staff are expected to take measures to minimise their environmental impact through simple day to day measures.
- We believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

- We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.
- It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.
