

Environmental Policy

Sefas Innovation recognises the effect its operations and activities have on the environment and therefore is committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment.

We will operate in compliance with relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do.

We believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

Environmental Aims

- To integrate the consideration of environmental concerns and impacts into all decision making and activities.
- To promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner, train, educate and inform our employees about environmental issues that may affect their work.
- To reduce waste through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.
- To promote efficient use of materials and resources throughout our offices including water, electricity, raw materials and other resources, particularly those that are non-renewable.
- To avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of.
- To purchase and use environmentally responsible products accordingly.
- To communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- To strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.
